“Warmth from Waste” initiative

Identifying research needs...

Satisfying them through international research projects

- Better exploitation and integration of underused energy sources
 - T.8 – Development of new waste-to-energy chains
 - T.9 – Implementation of optimised waste management

- Transfer of know-how
 - Policy recommendations
 - Best practices
 - Transferability
- Raising awareness
 - Public acceptance
 - Urban planners
 - System planning
- Data collection
 - Local resources
 - Quantification of benefits
 - Waste Heat Recovery
